This superb set will enable you to create British Foot Artillery batteries from the Spanish Peninsular War to the Battle of Waterloo. Each box contains 234 plastic parts that will allow you to build 3 guns, 3 limbers and 15 crew figures. www.victrixlimited.com

There are many gun barrel options so you can create early or late period guns as well as whole howitzer batteries. There is the choice of 4 different barrels for each gun, short 6 pounder, long 6 pounder, 9 pounder and a 5.5 inch howitzer.

The 6 pounders were used predominantly in the Peninsular war and the 9 pounders were used at Waterloo.

With many poses, arm options and head variants, the set gives real flexibility to make truly dynamic and

unique crews to man your guns. The head options have a choice of stovepipe or Belgic shakos. RRP £19.95
